INDEX OF SUBJECTS AND AUTHORS

Abdominal symptoms, acute, Spontaneous pneumothorax with, 67

Abscesses, pulmonary, pyogenic, Comparison of pathological changes in embolic tuberculous and, 150

Activity in pulmonary tuberculosis, current conception of, Protest against, 101

Acute abdominal symptoms, Spontaneous pneumothorax with, 67

Adherent tuberculous cavities, Closure of, by combined artificial pneumothorax and phrenicectomy, 355

Adult primary tuberculous infection, Tendencies in. II. Studies on the pathogenesis of primary tuberculous infection, 575

Alcohol and tuberculosis, 217

Allergy and anaphylaxis to tuberculoprotein, Sensitization of guinea pigs and production of, 291

ALPERT, LOUIS. The sanatorium treatment of lupus, 515

Altitude, climate and, Change of. I. Its effects on tuberculosis patients, 247

American Negro and white race, Pathological anatomy of pulmonary tuberculosis in, 411

Anaphylaxis, allergy and, to tuberculoprotein, Sensitization of guinea pigs and production of, 291

Anatomy, Pathological, of pulmonary tuberculosis in American Negro and white race, 411

Aneurysm, aortic, and pulmonary fibrosis, Spontaneous pneumothorax with, 553

Animals, experimental, Pulmonary roentgenography of small, 137

—— of varying resistance, Comparison of tissue reactions to pulmonary infection with tubercle bacilli in, 270

Aortic aneurysm and pulmonary fibrosis, Spontaneous pneumothorax with, 553

Appliance for immobilization in pulmonary tuberculosis, 375

ARONSON, JOSEPH D., ZACKS, DAVID, AND POUTAS, J. J. The comparative sensitiveness of the Pirquet and the intracutaneous tuberculin tests, 465

Artificial pneumothorax and phrenicectomy, combined, Closure of adherent tuberculous cavities by, 355

—— —— technique, Some aspects of, 522

Attenuation of *BCG*, Fixity of, 1

AUSTIN, HAROLD, AND DAINES, LYMAN L. A study of so-called skin lesions of tuberculin-reacting cattle, 600

Bacilli, tubercle, Comparison of tissue reactions to pulmonary infection with, in animals of varying resistance, 270

——, ——, cultivation of, from sputum, Comparison of certain media for, 259

BANYAI, ANDREW L., AND GRILL, JOHN. So called pleuropulmonary endothelioma, 193

BARACH, ALVAN L. The use of filtered-air chambers in pulmonary tuberculosis, 508

BCG, attenuation of, Fixity of, 1

——, Protection against tuberculosis with, in guinea pigs, 6

Benign pulmonary tuberculosis with diabetes, 47

BIRKHAUG, KONRAD E. Protection against tuberculosis with *BCG* in guinea pigs, 6

BLOCH, ROBERT G. Localized experimental tuberculosis of the lungs, 143

Blood counts in 150 clinical cases of tuberculosis and underlying pathological changes as shown by serial X-ray films, Correlation of, 488

—— differential count, Schilling, Tuberculin and, in diagnosis and classification of tuberculosis, 377

—— pressure in tuberculosis, 342

BOISSEVAIN, C. H. The production of tuberculous tissue and hypersensitiveness to tuberculin in guinea pigs, 595

BOMMER, S. The dietary treatment of skin tuberculosis, 209
BOOK REVIEWS: *Exploration radiologique de l'appareil respiratoire*—Sergent, Bordet & Durand, 108; *Die Lungentuberkulose, Lehrbuch der diagnostischen Irrtümer*—Nico & Schroeder, 109; *Die Perkussion der Lungenspitzen*—Winkler, 111; *Über die neuere Entwicklung der chirurgischen Behandlung der Lungentuberkulose*—Nissen, 111; *Ernährung und Diät bei Tuberkulose*—Rehfeldt, 113; *Vaccination preventive de la tuberculose de l'homme et des animaux par le BCG*, 115; *Die Prognose der offenen Lungen-Tuberkulose bei Kindern und Jugendlichen*—Klare, 117; *Tuberkulose als Schicksal*—Ebstein, 118. (All reviews by MAX PINNER.)
Brain, Tuberculoma of, 171
Bredeck, J. F. Tuberculin and Schilling blood differential count in diagnosis and classification of tuberculosis, 377
BROWN, LAWRASON, AND EAGAN, JOSEPH T. Alcohol and tuberculosis, 217

CALMETTE, A. The fixity of the attenuation of *BCG*, 1
Case-finding, tuberculosis, Fluoroscopy, 71
Cattle, tuberculin-reacting, skin lesions, Study of so-called, 600
Cavities, tuberculous, adherent, Closure of, by combined artificial pneumothorax and phrenicectomy, 355
Change of climate and altitude. I. Its effects on tuberculosis patients, 247
Classification of tuberculosis, Tuberculin and Schilling blood differential count in diagnosis and, 377
Climate and altitude, Change of. I. Its effects on tuberculosis patients, 247
Closure of adherent tuberculous cavities by combined artificial pneumothorax and phrenicectomy, 355
Codliver-oil concentrate injections, Effects of, 368
COHEN, SEYMOUR J. The gastric function in tuberculosis, 330.
Combined artificial pneumothorax and phrenicectomy, Closure of adherent tuberculous cavities by, 355
Comparative sensitiveness of Pirquet and intracutaneous tuberculin tests, 465
Comparison of certain media for cultivation of tubercle bacilli from sputum, 259
—— —— pathological changes in embolic tuberculous and pyogenic pulmonary abscesses, 150
—— —— tissue reactions to pulmonary infection with bacilli in animals of varying resistance, 270
Congenital cystic disease of lung, 59
Consulting service for roentgenologists, Engineering, 216
Correlation of blood counts in 150 clinical cases of tuberculosis and underlying pathological changes as shown by serial X-ray films, 488
Costa and red-cell sedimentation reactions in laryngeal tuberculosis, 92
Count, Schilling blood differential, Tuberculin and, in diagnosis and classification of tuberculosis, 377
Counts, blood, in 150 clinical cases of tuberculosis and underlying pathological changes as shown by serial X-ray films, Correlation of, 488
Cultivation of tubercle bacilli from sputum, Comparison of certain media for, 259
Current conception of activity in pulmonary tuberculosis, Protest against, 101
CUTLER, J. W. Some aspects of artificial-pneumothorax technique, 522
Cystic disease of lung, Congenital, 59

MASTEN, A. R. The blood-pressure in tuberculosis, 342
MAYER, EDGAR. Preventive and therapeutic measures in tuberculosis since Koch, 529
Media for cultivation of tubercle bacilli from sputum, Comparison of certain, 259
Method of recording roentgen-ray readings, 311
MYERS, J. ARTHUR. Recent developments in our knowledge of tuberculosis, 121

Negro, American, and white race, Pathological anatomy of pulmonary tuberculosis in, 411
Normal and tuberculous guinea pigs, Effect of tuberculin on spermatozoa from, 401
Nurse, trained, tuberculosis, The, 81

OECHSLI, WALDO R., AND SKILLEN, JANE. Spontaneous pneumothorax with acute abdominal symptoms, 67
Organisms, yeast-like, Generalized tuberculosis complicated by presence of, 348

Pathogenesis of primary tuberculous infection, Studies on. I. The regressive lesions, 559
—— —— —— —— ——, —— ——. II. Tendencies in adult primary tuberculous infection, 575
Pathological anatomy of pulmonary tuberculosis in American Negro and white race, 411
—— changes in embolic tuberculous and pyogenic pulmonary abscesses, Comparison of, 150
—— ——, underlying, as shown by serial X-ray films, Correlation of blood counts in 150 clinical cases of tuberculosis and, 488
Patients, tuberculosis, Effects of change of climate and altitude on, 247
PHILLIPS, E. W. Change of climate and altitude. I. Its effects on tuberculosis patients, 247
Phrenicectomy, combined artificial pneumothorax and, Closure of adherent tuberculous cavities by, 355

PIERSON, PHILIP H. A comparison of the pathological changes in embolic tuberculous and pyogenic pulmonary tuberculous abscesses, 150
PIRKLE, H. B. A method of recording roentgen-ray readings, 311
Pirquet and intracutaneous tuberculin tests, Comparative sensitiveness of, 465
Pleuropulmonary endothelioma, So called, 193
Pneumothorax, artificial, and phrenicectomy, combined, Closure of adherent tuberculous cavities by, 355
——, ——, technique, Some aspects of, 522
——, Spontaneous, with acute abdominal symptoms, 67
——, ——, —— aortic aneurysm and pulmonary fibrosis, 553
POLLOCK, WILLIAM C., AND MARVIN, HORACE P. Congenital cystic disease of lung, 59
POUTAS, J. J., ARONSON, JOSEPH D., AND ZACKS, DAVID. The comparative sensitiveness of the Pirquet and the intracutaneous tuberculin tests, 465
Practice, Tuberculosis dispensary, in New Haven, Connecticut, 611
Preventive and therapeutic measures in tuberculosis since Koch, 529
Primary tuberculous infection, pathogenesis of, Studies on. I. The regressive lesions, 559
—— —— ——, —— ——, —— ——. II. Tendencies in adult primary tuberculous infection, 575
Production of allergy and anaphylaxis to tuberculoprotein, Sensitization of guinea pigs and, 291
—— —— tuberculous tissue and hypersensitiveness to tuberculin in guinea pigs, 595
Protection against tuberculosis with *BCG* in guinea pigs, 6
Protest against current conception of activity in pulmonary tuberculosis, 101
Pulmonary abscesses, pyogenic, Comparison of pathological changes in embolic tuberculous and, 150
—— fibrosis, Spontaneous pneumothorax with aortic aneurysm and, 553
Pulmonary infection with tubercle bacilli, Comparison of tissue reactions to, in animals of varying resistance, 270
—— roentgenography of small experimental animals, 137
—— tuberculosis, activity in, current conception of, Protest against, 101
—— ——, Benign, with diabetes, 47
—— ——, filtered-air chambers in, Use of, 508
—— ——, Gastric function in, 330
—— ——, immobilization in, Appliance for, 375
—— —— in American Negro and white race, Pathological anatomy of, 411
Pyogenic pulmonary abscesses, Comparison of pathological changes in embolic tuberculous and, 150

Race, white, Pathological anatomy of pulmonary tuberculosis in American Negro and, 411
Reactions, Costa and red-cell sedimentation, in laryngeal tuberculosis, 92
——, tissue, to pulmonary infection with tubercle bacilli in animals of varying resistance, Comparison of, 270
Recent developments in our knowledge of tuberculosis, 121
Recording roentgen-ray readings, Method of, 311
Red-cell sedimentation, Costa and, reactions in laryngeal tuberculosis, 92
Regressive lesions. Studies on pathogenesis of primary tuberculous infection. I, 559
REICHLE, H. S., AND GOLDBLATT, HARRY. The sensitization of guinea pigs and the production of allergy and anaphylaxis to tuberculoprotein, 291
Resistance, varying, animals of, Comparison of tissue reactions to pulmonary infection with tubercle bacilli in, 270
Roentgenography, Pulmonary, of small experimental animals, 137
Roentgenologists, Engineering consulting service for, 216
Roentgen-ray readings, Method of recording, 311
Rôle of emotion in tuberculosis, 315

RUBENSTEIN, CHARLES L. The Costa and red-cell sedimentation reactions in laryngeal tuberculosis, 92

Sanatorium treatment of lupus, 515
Schilling blood differential count, Tuberculin and, in diagnosis and classification of tuberculosis, 377
SCOTT, ERNEST, AND GRAVES, GRANT O. Tuberculoma of the brain, 171
Sedimentation, red-cell, Costa and, reactions in laryngeal tuberculosis, 92
Sensitiveness, Comparative, of Pirquet and intracutaneous tuberculin tests, 465
Sensitization of guinea pigs and production of allergy and anaphylaxis to tuberculoprotein, 291
Serial X-ray films, Correlation of blood counts in 150 clinical cases of tuberculosis and underlying pathological changes as shown by, 488
SHAFFER, M. A comparison of certain media for the cultivation of tubercle bacilli from sputum, 259
SHIPMAN, SIDNEY J., AND DAVIS, ELIZABETH A. Tuberculosis and tuberculous infection among nurses, 474
SKILLEN, JANE, AND OECHSLI, WALDO R. Spontaneous pneumothorax with acute abdominal symptoms, 67
Skin lesions of tuberculin-reacting cattle, Study of so-called, 600
—— tuberculosis, treatment of, Dietary, 209
SLAVIN, PAUL. Closure of adherent tuberculous cavities by combined artificial pneumothorax and phrenicectomy, 355
Small experimental animals, Pulmonary roentgenography, 137
So called pleuropulmonary endothelioma, 193
Spermatozoa from normal and tuberculous guinea pigs, Effect of tuberculin on, 401
Spontaneous pneumothorax with acute abdominal symptoms, 67
—— —— —— aortic aneurysm and pulmonary fibrosis, 553
Sputum, cultivation of tubercle bacilli from, Comparison of certain media for, 259
SWEANY, HENRY C. Studies on the pathogenesis of primary tuberculous infection. I. The regressive lesions, 559
SWEANY, HENRY C. Studies on the pathogenesis of primary tuberculous infection. II. Tendencies in adult primary tuberculous infection, 575
Symptoms, abdominal, acute, Spontaneous pneumothorax with, 67

Tape test with tuberculin ointment, 308
Technique, artificial-pneumothorax, Some aspects of, 522
Test, Tape, with tuberculin ointment, 308
Tests, tuberculin, Pirquet and intracutaneous, Comparative sensitiveness of, 465
Therapeutic measures in tuberculosis since Koch, Preventive and, 529
Thoracoplasty, Effects of, on heart, 200
Tissue reactions to pulmonary infection with tubercle bacilli in animals of varying resistance, Comparison of, 270
——, tuberculous, and hypersensitiveness to tuberculin in guinea pigs, Production of, 595
TITHERINGTON, R. J., AND GORDON, BURGESS. The effects of codliver-oil concentrate injections, 368
Trained nurse, tuberculosis, The, 81
Treatment, Dietary, of skin tuberculosis, 209
—— of lupus, Sanatorium, 515
Tubercle bacilli, Comparison of tissue reactions to pulmonary infection with, in animals of varying resistance, 270
—— ——, cultivation of, from sputum, Comparison of certain media for, 259
Tuberculin and Schilling blood differential count in diagnosis and classification of tuberculosis, 377
——, Effect of, on spermatozoa from normal and tuberculous guinea pigs, 401
——, hypersensitiveness to, in guinea pigs, Production of tuberculous tissue and, 595
—— ointment, Tape test with, 308
—— reacting cattle, skin lesions of, Study of so-called, 600
—— tests, Pirquet and intracutaneous, Comparative sensitiveness of, 465
Tuberculoma of brain, 171
Tuberculoprotein, allergy and anaphylaxis to, Sensitization of guinea pigs and production of, 291

Tuberculosis, Alcohol and, 217
—— and leukaemia, 32
—— —— tuberculous infection among nurses, 474
——, Blood-pressure in, 342
—— case-finding, Fluoroscopy in, 71
——, Correlation in 150 clinical cases of, and underlying pathological changes as shown by serial X-ray films, 488
——, diagnosis and classification, Tuberculin and Schilling blood differential count in, 377
—— dispensary practice in New Haven, Connecticut, 611
——, emotion in, Rôle of, 315
——, Generalized, complicated by presence of yeast-like organisms, 348
——, knowledge of, Recent developments in our, 121
——, laryngeal, Costa and red-cell sedimentation reactions in, 92
—— of lungs, experimental, Localized, 143
—— patients, Effects of change of climate and altitude on, 247
——, Preventive and therapeutic measures in, since Koch, 529
——, Protection against, with *BCG* in guinea pigs, 6
——, pulmonary, activity in, current conception of, Protest against, 101
——, ——, Benign, with diabetes, 47
——, ——, filtered-air chambers in, Use of, 508
——, ——, Gastric function in, 330
——, ——, immobilization in, Appliance for, 375
——, ——, in American Negro and white race, Pathological anatomy of, 411
——, skin, treatment of, Dietary, 209
—— trained nurse, The, 81
Tuberculous cavities, adherent, Closure of, by combined artificial pneumothorax and phrenicectomy, 355
——, embolic, and pyogenic pulmonary abscesses, Comparison of pathological changes in, 150
—— guinea pigs, Effect of tuberculin on spermatozoa from normal and, 401
Tuberculous infection by way of female genital tract, Study of, 589
—— ——, primary, pathogenesis of, Studies on. I. The regressive lesions, 559
—— ——, ——, —— ——, —— ——. II. Tendencies in adult primary tuberculous infection, 575
—— ——, Tuberculosis and, among nurses, 474
—— tissue and hypersensitiveness to tuberculin in guinea pigs, Production of, 595

Varying resistance, animals of, Comparison of tissue reactions to pulmonary infection with tubercle bacilli in, 270
